Such ore as that marketed yesterday goes to show that reports from the mine have not been at all exaggerated, and it speaks well for the section of the district east of the Annie Laurie and north of Deer creek, and should result in much active development,

The lot was sold on controls assaying 130.45 ounces silver and 1.98 ounces

STRIKE IN WEST CENTURY.

Over Three Feet of Ore That Runs Well in Gold, Silver and Lead.

Accompanying samples of fine lookng ore came letters from Superintendent Higginbotham of the West Cen-tury at Park valley Wednesday night, telling that an important strike had been made in that property. According to the letters, which reached both Frank D. Higginbotham and H. S. Joseph, the strike occurred at a distance of 500 feet from the mouth of the tunnel

The ore made its appearance first as a six-inch streak a few days ago, and when the letter was mailed there was a full three feet of good looking quartz well filled with severe while received. when the letter was mailed there was a full three feet of good looking quartz well filled with galena, while next to the hanging wall of the ledge were six inches of crumbly fron quartz, identical in appearance with the best goldbearing ores of the Century mine.

Manager R. G. Wilson has returned from a three days' trip to the New York Bonanza property at Park City. He says the shaft is now down to a depth of 125 feet and during the next few days the whim in use will be replaced by a "donkey" steam hoist and be continued in use until the big plant arrives and is placed in commission. The difficulty in securing lumber, Manager Wilson says, is greatly retarding the erection of the buildings, but with the "donkey" in commission, averything will go along all right till Christmas, if necessary.
